

③ REASONS

To Enroll in Your Company's Voluntary Dental Plan

Your employer cares about your oral health. If you're not currently enrolled in your company's Delta Dental plan, here are three great reasons to sign up.

REASON ① Save Your Smile

Cavities, gum disease and other concerns threaten your oral health and wellbeing. Visiting the dentist regularly for professional cleanings is an important part of maintaining a healthy smile. Plus, your oral health has critical ties to your overall health.

81 percent of people with dental benefits visit the dentist twice a year or more.

Source: The Long Group Retail Dental Insurance Consumer Acceptance Study, June 2009.

REASON ② Save Yourself Stress

In most cases, preventive coverage gives you the freedom to schedule regular check-ups without worrying about the cost – while comprehensive coverage offers peace of mind should you or a family member require more extensive dental care.

Many dental plans cover preventive care at **100 percent**.

REASON ③ Save Money

Your voluntary dental plan can help you save money by providing access to reduced fees at the dentist, allowing you to take advantage of group rates, and offering the opportunity to enjoy pre-tax savings on your premiums through payroll deduction.*

Delta Dental contracts with the **largest network** of dentists in the nation.

Talk with your employer about enrolling in your company's dental benefit plan today ± or visit DeltaDentalVa.com/voluntary.aspx to watch a short video about how enrolling in a voluntary plan may help you save money.
