

VSP LightCare

DeltaVision has partnered with VSP® Vision Care to offer VSP LightCare™ as part of your benefits. With VSP LightCare, members can choose to use their prescription eyewear benefit toward nonprescription sunglasses or blue light-filtering glasses.

DEFEND YOUR EYES, INSIDE OR OUT

Wearing blue light-filtering glasses helps defend against eye strain. Digital screens and even fluorescent lighting emit blue light that may contribute to headaches, blurred vision and sore eyes — all possible symptoms of eye strain.

Over time, the sun's rays may damage corneas and cause eye-related diseases such as cataracts. Always wear sunglasses outdoors to shield your eyes from the sun's ultraviolet rays.** Under your VSP LightCare benefit, you have the option to use your frame and lens benefit for nonprescription eyewear, such as sunglasses or blue-light filtering glasses.

View your benefits or find a VSP vision care provider at vsp.com or call 800.877.7195.

*Less any applicable copay when you visit a VSP network eye care provider. **Tips for Choosing the Best Sunglasses, American Academy of Ophthalmology, June 2021.
