Your choice of dentist

Healthier smiles

Delta Dental PPO™ — Passive

With the Delta Dental PPO — Passive plan, you may visit any dentist in any network and Delta Dental will pay the same percentage. However, your out-of-pocket costs will be lowest if you see a Delta Dental PPO dentist and highest if you choose an out-of-network dentist.

Plan highlights

- More than half of all dentists participate nationally in the Delta Dental PPO network.¹
- You can see any dentist under this plan. However, Delta Dental reimburses all dentists, regardless of network status, at the PPO level. To get the most value for your benefits, we encourage you to visit a PPO dentist when possible.
- Both Delta Dental PPO and Delta Dental Premier dentists agree to discount their fees and submit claims on your behalf. With the PPO plan, Premier providers can bill you for the difference between the PPO and the Premier allowances.

Find a dentist in your plan

To ensure that your dental services are covered and that you receive the greatest value for your dental benefits, it is important that your dentist participates in the plan listed at the top of your Delta Dental ID card. Check with your dentist to be sure they participate in the plan indicated here before your first dental visit. If you do not have a dentist and wish to find an in-network dentist, visit DeltaDentalVA.com to use our Find a Dentist tool.
