Delta Dental of Virginia requires a **Benefit Verification Number (BVN)** to support secure and efficient benefit verification.

Effective May 1, 2026, our customer service representatives will ask for a BVN before providing additional benefit details by phone.

Your office can easily obtain a BVN by:

1. Viewing a member's benefits in Delta Dental of Virginia's secure dentist portal, or
2. Requesting a faxback of a member's benefits

The BVN helps protect patient information by confirming we are speaking with authorized office staff — especially as AI-driven and third-party calls continue to increase.

Thank you for partnering with us.
