

Right Start 4 Kids

Did you know cavities are the number one chronic disease in children?

Cavities are five times more common than asthma.¹ Children who have pain from cavities may miss more school and have lower grades than their peers, not to mention the lost work hours for parents. But cavities are nearly 100% preventable. With Right Start for Kids®, Delta Dental of Virginia makes it easy to protect your child’s oral, and overall, health.

THE RIGHT START FOR A BRIGHT FUTURE

Right Start 4 Kids from Delta Dental is a benefit that helps remove cost barriers to dental care for children up to age 13 by providing 100% coverage for diagnostic and preventive, and basic and major services, with no deductible, when you visit a Delta Dental of Virginia in-network dentist.* That means lower out-of-pocket costs for you! Coinsurance levels apply when visiting an out-of-network dentist.

If you don’t have a dentist, visit us at [DeltaDentalVA.com/members](https://www.DeltaDentalVA.com/members) to find a Delta Dental in-network dentist near you.
