

Medical eye care

DeltaVision is dedicated to providing eye care that supports your health and wellness. DeltaVision® has partnered with VSP® Vision Care to offer Essential Medical Eye Care to provide treatment options for pink eye and dry eye, as well as longer term conditions such as diabetes and glaucoma.

WHAT'S INCLUDED?

- A fully-covered retinal screening for members with diabetes. These images of the inside of the eye are a noninvasive way to monitor diabetes.
- Treatment for urgent issues such as pink eye and sudden changes in vision.
- Treatment options to monitor ongoing health conditions such as dry eye, diabetic eye disease, glaucoma and more.

Contact your VSP network doctor for an appointment. If your doctor participates in your medical insurance plan's network, medical insurance will be billed. If your VSP doctor doesn't participate with your medical insurance plan, DeltaVision has it covered with only the cost of a copay.* View your benefits or find a VSP vision care provider at vsp.com or call 800.877.7195.

*A standard copay of up to \$20 is required for medical eye exams. Other covered services are covered-in-full, including retinal screening for members with diabetes. Delta Dental and DeltaVision are registered marks of Delta Dental Plans Association. DeltaVision is underwritten by Stryden, Inc., an affiliate of Delta Dental of Virginia. Claims processing, claims service and provider network administration for DeltaVision are provided under contract by VSP. VSP is a registered trademark of Vision Service Plan.
