

Care that meets your clients where they are

Your clients are looking for benefits that meet them where they are — and that includes those with unique health care needs.

Delta Dental of Virginia's Special Health Care Needs program is designed to make dental care more accessible for members who may need extra support. It's a meaningful way to enhance plan value while helping remove barriers to care.

Delta Dental of Virginia is committed to inclusive, people-first coverage by offering:

- Care options for individuals with physical, developmental, behavioral, or emotional conditions
- Expanded benefits to help make dental visits more comfortable, manageable and positive

WHAT THAT SUPPORT MAY LOOK LIKE

Plans may include extra services such as:

- Additional visits with the dentist to talk through care and become more familiar and comfortable with the dental environment

- More frequent cleanings — up to four each year to support ongoing oral health.
- Personalized treatment modifications and supportive techniques to help reduce stress, discomfort or barriers to care.

BENEFIT HIGHLIGHTS

- Covered services are paid at 100% with no deductible when performed by a Delta Dental in-network dentist, though they are still subject to the plan's annual maximum.
- A predetermination of benefits is recommended before treatment. Some services may require review or approval and are considered case by case.

Give your clients a meaningful way to support all of their employees — with benefits designed support every smile.*
